Palmones, 12 March 2014

Acerinox Europa, S.A.U., certifies that manufactured Stainless Steel has successfully passed the radioactive controls. The results of this radioactive control indicate that the detected level was the background level of radiation, and therefore Acerinox Stainless Steel is certified to be free of radiation.

A handwritten signature in blue ink, consisting of a large, stylized 'E' and 'P' with a small 'PA' to the left. The signature is written over the printed name and title of the signatory.
